OK. Then I will take control and hope I don't get sidetracked by any higher priorities!

The ACN version I sent you is the most up-to-date.

For some reason I was thinking the meeting was going to be on Tuesday and not Thursday...so yay! I have more time to make edits! Is there a newer version than what you sent me this Tuesday?

I have been prioritizing BaP and HBCD, but I should have some time today and tomorrow to make edits.

Are you making changes to the ACN text? I was going to go back into the doc but will wait for changes from you. OK?

And it looks like we got our answer about the cancer section.

Ex. 5 Deliberative Process (DP) Maybe it was just Quast 1980 that was missing some indication that it was an inhalation study. Also, the Szabo 1984 study notes gavage but does not say whether daily or how many times per week.

Ex. 5 Deliberative Process (DP)

When do you want to send out the forestomach and cancer ACN sections for review? Are we waiting on a revised cancer section from Tenielle and Margaret?

Were the inhalation studies in different tables? I can add a label within the table for oral and inhalation.

Ex. 5 Deliberative Process (DP)

Looks like you made lots of good revisions.

Ex. 5 Deliberative Process (DP)

What else did you want input on?

Ex. 5 Deliberative Process (DP)

Kathleen – Thanks for your comments. Please see my responses. There are a couple that I'd like your input/advice on. Thanks.

Martin
